15th ODA PORTFOLIO REVIEW Table 6 Problem Analysis of Projects GOCC Name As of December 31, 2006

PROJECT TITLE	As indicated in loan agreement
OUTSTANDING PROBLEMS	Major issues/problems still outstanding encountered during the pre-implementation phase as well as in the implementation phase. Provide more details on the type/nature of problem, magnitude, as well as indication of how long this problem had been existing.
REMARKS/ASSESSMENT ACTION TAKEN/BEING TAKEN	Indicate probable cause of problems and the steps taken/being taken in resolving past problems. Also indicate date(s) when these problems were resolved. List down countermeasures underway or being instituted by concerned unit(s), whether individually or collectively to resolve the identified problems. Indicate details of the problem and its probable effect on the overall project scope, implementation schedule and cost. Indicate also the names of other agencies involved to facilitate early resolution of problems.
RECOMMENDATION/S	Outline the action plan necessary to resolve any outstanding problem affecting the project. Given the problems identified as outstanding, indicate the probability of still meeting the project objectives — low, moderate, high probability, etc.

Projects with Possible Cancellations in CY 2007 and Beyond GOCC Name

FUNDING SOURCE	Name of funding institution where loan proceeds was sourced
PROJECT TITLE	As indicated in loan agreement
POSSIBLE LOAN AMOUNT FOR CANCELLATION IN 2007 AND BEYOND	Estimated portion of loan amount to be cancelled in 2007 and beyond, in \$million
REASON/S FOR CANCELLATION	Provide details on the reason(s) for cancellation. Given the reasons identified which resulted in the cancellation, indicate the probability of still meeting the project objectives — low, moderate, high probability, etc.

15th ODA PORTFOLIO REVIEW Table 8 Project Results GOCC Name As of December 31, 2006

PROJECT TITLE	As indicated in loan agreement
LOAN NUMBER	Number of loan indicated in loan agreement
IMPLEMENTING AGENCY	Name of agency(ies) implementing the project
PROJECT OBJECTIVE/S	Consists of the Goal, Purpose and Output as indicated in the project's logical framework (ICC PE Form 6). The objectives (if there are many objectives) that will be assessed are those which can be achieved during the evaluation period.
	Results refer to the project objective(s) as stated in the narrative summary of the project's logical framework (ICC PE Form 6). These are new conditions or qualities achieved when beneficiaries adopt/utilize the project outputs.
RESULTS INDICATORS/TARGET	Indicators which will measure/indicate in concrete, observable and objectively verifiable terms, to what extent the expected results have been achieved. Indicators, as much as possible, should have Quality, Quantity, Area and Beneficiaries dimensions.
OBSERVED RESULTS	Maybe either proxy or logframe indicators. Proxy indicators may lead as "stand in" for the logical framework indicators (as indicated in the project's logical framework or ICC PE Form 6) whenever the latter is still not available/appreciable but nevertheless may provide early evidence that project results will be or will not be achieved.

Note: Projects are not simply a means to accomplish components and activities but they are the best means to attain end of project objectives or project results (or outcomes). Project results are the initial benefits directly resulting from the project. These should become visible during, or soon, after project completion. They are usually based on specific results indicators which are measurable indicators derived from the logical framework (or similar instruments) used in the design of the project.

Procurement Milestones (With contracts awarded or NTP issued in CY 2006) GOCC Name

As of December 31, 2006

	·
Project Title	As indicated in loan agreement
Implementing Agency	Name of agency(ies) implementing the project
Contract Description	Details on the contract to be procured, by component, by package
Start of Tendering Process/Advertisement	Date when tendering process and/or advertisement started (mm/dd/yyyy)
Submission and Opening of Bids	Date when bid documents containing the technical and financial proposals were submitted by the prequalified contractors and when bids were opened by the implementing agency (mm/dd/yyyy)
Completion of Bid Evaluation	Date when evaluation of technical and financial proposals of short-listed consulting firms or prequalified contractors were completed (mm/dd/yyyy)
Contract Award	Date when contract with consulting firm or contractor was awarded or approved and signed by the head of the implementing agency (mm/dd/yyyy)
Issuance of Notice to Proceed (NTP)	Date when NTP was issued by the implementing agency to the winning bidder (mm/dd/yyyy)
Total	Number of months it took an implementing agency to complete the bidding process, i.e., from start of tendering process/advertisement to NTP issuance
Concurrence of Funding Institution	Number of months it took an implementing agency to secure the concurrence or approval of the funding institution, i.e., from start of tendering process/advertisement to NTP issuance
Net of Funding Institution's Processing Time	Actual number of months it took the implementing agency to process the contract

Note: In accordance with RA 9184 or the Procurement Reform Act (PRA), the procurement process, from opening of bids to award of contract, should not exceed three (3) months (Section 38 of the PRA).
